Continuation of Substance of Interview including description of the general nature of what was discussed:

Attorney Heber was requested to provide clarification as to whether the ORF0657n sequence of Becker strain of *Staphylococcus aureus* provided in Appendix B attached to the after-final amendment filed 02/24/2010 is a part of the instant specification and the instant Sequence Listing. Attorney Heber informed the Examiner of record that the Becker polypeptide sequence depicted in Appendix B is not a part of the instant application.
